

# Market Analysis Memo

FY2026 | Regional and product demand hypotheses

Synthetic market-analysis memo aligned to Sales Data regions and products. Hypotheses should be validated against transaction data.

## Regional demand picture

| Region  | Units  | Revenue     | Revenue share |
|---------|--------|-------------|---------------|
| Central | 14,383 | \$4,296,414 | 21.9%         |
| North   | 13,668 | \$4,111,663 | 20.9%         |
| West    | 13,237 | \$3,979,849 | 20.3%         |
| South   | 11,845 | \$3,669,775 | 18.7%         |
| East    | 11,988 | \$3,575,094 | 18.2%         |

## Market hypotheses to test

- Central is the largest revenue market; investigate concentration risk and product mix.
- East is the smallest revenue market; investigate volume, product mix and sales coverage.
- Compare Product A and Product F across regions to see whether portfolio mix explains regional differences.
- Compare monthly revenue changes with customer-feedback timing before attributing changes to market demand.
